

Roll-Rite® DC350 Series

Roll Off & Hooklift Tarp Systems

...For Refuse & Recycling

Roll-Rite® DC350 Series

Super Duty Motor

Tower & Integrated Housing

Wireless Controls

Sliding Pivot

Quality, durable tarp components engineered for tarping detachable container trucks & trailers

DC Series Tarp System Benefits:

- **The Super Duty Electric Gear Motor:** Designed for high torque tarping, Super Duty features a spur and helical gear configuration with forged heat treated gears and precision ground bearings for a much longer-life transmission. Features the industry's only 5-year non-prorated warranty against premature wearout
- **The Tower & Integrated Housing:** Tarp spool ships completely pre-assembled with pre-installed, pre-wired and pre-tested Integrated Housing and Super Duty Gear Motor, Power Pack Unit and Black Box™ Wireless Controls. Standard Equipment includes Work Lights and Coil Cord. Pre-wired fast "install-ready" hookup in under 10 hours. Bolt-on mountings on Power Pack and Black Box mountings for in-

stalls needing more flexibility. Durable black powder-coated finish on tower provides added durability and corrosion resistance. Easiest to Install with 12-inches of clearance behind cab. Tower Mounting Brackets are available in either U-Bolt or Side Frame style, call for details

- **Wireless Black Box™ Controls:** Systems with adjustable features come standard with our Black Box™ wireless controls with keyfob remotes. Sealed membrane push button operation. Work light button with remote control access. Meets SAE International Standard for Heavy Duty Vehicle Applications (SAE# J1455). "Install-Ready" pre-wired, improved external connections for fast hookup. Automatic Timed Lockout, No Key lockout needed.

Press Ch1 and Ch2 buttons or keyfob to unlock or re-lock. Clearly see what you tarp with 360° walk-around remote operation, preventing load obstruction

- **The Roll-Rite® Arms:** Roll-Rite® tarp arms consist of a lower pivot arm and upper tarp bow made from a specially treated, high strength extruded aluminum alloy buffed and polished to a mirror-like finish. Arm is designed to deliver the lightest, most durable tarp arm with maximum strength to weight ratio. Telescopic fit for easy installation and widest range of system variations. 45° Pivot Offset option is the strongest offset available, effectively positioning base pivot arm parallel to hoist frame, reducing load interference

The DC350 Sliding Pivot:

- **Ultra Light:** Lightest weight fully adjustable system on the market at only 95lbs per side
- **Narrow Profile:** Power of 6-springs in the 2-spring equivalent 3 in. wide profile

DC350

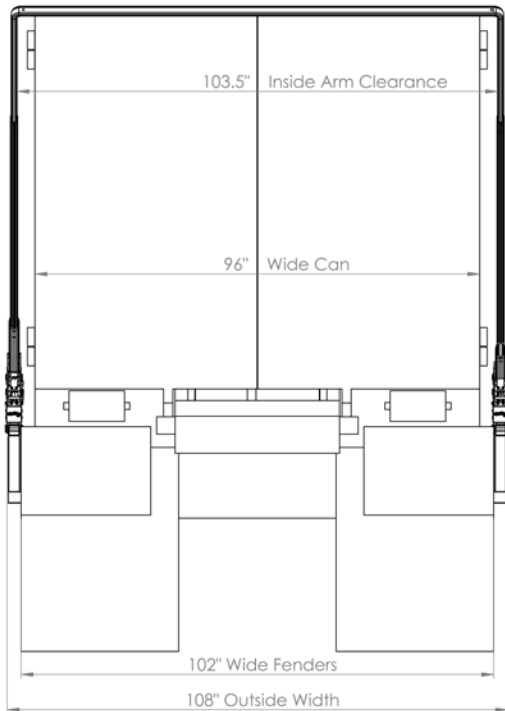

For trucks with varying size containers up to 40yds and using up to 30 feet of tarp. For more detail, see our DC350 brochure. DC350 may feature:

- Super Duty 98" Tarp Spool w/ Integrated Housing, Adjustable Tower
- Patented Sliding Pivot Mount Set w/Narrow 3" profile
- Wireless Power Pack w/ Black Box™ Remote, 2 Keyfobs
- Wide Tarp Bow Set
- Worklights
- Options:
 - DC352 with 2-stage tower adjusts from 5 feet up to 11 feet above truck frame to allow clearance on taller containers
 - 45° Pivot Arm Offset option

Estimated System Weight: 750lbs

- **Offset Pivot Arm Option:** 45° Pivot Offset option positions base pivot arm parallel to hoist frame, reducing load interference

- **Greater Clearance:** 103.5" inside arm width and narrow profile for ideal fender clearance. 108" outside width if mounted outside of fender

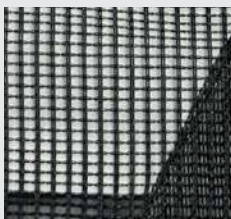

- **Powr-Lock™ Feature:** When tarp is deployed and tarp drops behind container, the bow can be locked down by sliding pivots forward
 1. Partially Deploy Tarp
 2. Raise Tower and Slide Pivots Forward
 3. Deploy Tarp While Sliding Pivots Back
 4. With Tarp Deployed and Pivots Back, Lower Tower, Slide Pivot Forward, Tighten Tarp

- **Versatile Range:** Pivot combined with patented sliding mechanism allows 20 in. of travel and 180° rotation to easily accommodate 20-, 30- and 40-yard containers

Tarps By Roll-Rite®

Premium Mesh

- Load Type: Refuse, General
- Fabric: 7.7 oz premium 7.5x5 weave with two 1000 denier polyester UV coated twisted strands (1500Dx1000D)
- Key Benefit: Premium strength, longer life cycle than industry standard mesh

Super Tough Mesh

- Load Type: Challenging Scrap, Construction & Demolition
- Fabric: Premium 16 oz heavy, 7x7 weave with 7,500 denier UV protected strands of polypropylene breathes enough to minimize flapping
- Key Benefit: Longer life, up to 3x-5x wear life over other scrap tarps

The Pleated Tarp Design:

You can have the benefits of both a straight tarp and a flapped tarp with none of the hassles. Fabricated with two pleated folds along the length, the tarp can expand up to 10' wide to function like flaps. Pleated Tarps are a custom order. The Pleated Tarp lets you...

- Eliminate shock cords
- Forget the seams
- Stop straining to reach the center of a flapped tarp
